Works Bureau Funds Lacking, Auditor Says

No Salaries to Meet WPA Co-Ordinator Pay Yet Found

Plans of the board of supervisors to set up a separate Works Progress Administration department suffered a setback Wednesday when Deputy Controller Geo. Filbert said he didn't see where funds could be obtained to pay such a department without violation of charter provisions.

Speaking in the absence of Controller Edward M. Stack, who is ill, Filbert said he also could not see his way clear to pay Inspector H. W. Arnold for his work on the controversial Lobitos Creek bridge since the charter specifically names the county engineer as the man to hire all workers on roads, highways and bridge projects.

Arnold was appointed by County Executive Kellogg, and his salary on Monday was ordered paid by the board of supervisors despite charter provisions to the contrary.

CONFERS WITH FERRELL

As a result, Filbert said he intended conferring with Dist. Atty. Gilbert Ferrell this afternoon to see how, if possible, the two new salaries, which were not budgeted for the coming year, could be paid.

If no salary can be afforded for the new WPA coordinator, possibility was seen that County Executive Kellogg, named with Ferrell to draw up a resolution creating the post, may appoint a present engineering subordinate, perhaps Deputy E. B. Bailey, to the position.

Kellogg denied that W. W. Hendricks, Hillsborough city engineer, "or anyone else" has been selected for the job, and declared emphatically the department was not being set up "just to create a job." Kellogg said several applications, among them Hendrick's, had been received.

Nevertheless, Hendricks and Kellogg conferred this morning on the position, and attempted to get Ferrell's reaction to the matter, only to have the district attorney put them off until afternoon, at which time the new bureau, decided upon Monday by the board of supervisors, is to be considered.

NOT STRIPPING SCOTT

Supervisor Albert Witt, at whose suggestion the board unanimously agreed upon some sort of a WPA coordinator, denied published reports that the bureau would strip County Engineer Carl R. Scott of any of his duties, but instead would only take care of added duties when WPA projects are obtained for the county.

"Construction and maintenance of roads are under the road department, and it was not my intention to take any powers away from that department," Witt explained.

He said, however, that other projects, notably sewers, under his plan would be built under direction of the new coordinator, whose main job would be to secure federal funds, much as does Clyde Healy for San Francisco. Healy recently returned from Washington with assurances of some $8,000,000 of federal funds for the bay city.

"We need a competent man at the head of this department," Witt declared, stating he did not believe anyone at present in the road department was capable of filling the position. He likewise denied the move was political, but was solely "to get what's coming" to this county from the federal government.

"And if anyone bucks the project, he is not cooperating with the county," Witt charged.

BAILEY LOGICAL MAN

Engineer Scott, however, like Filbert, pointed out that money was not available from his limited budget to pay a coordinator, and said he believed Deputy Bailey would be the logical man to handle the job.

"This would save another salary (which Kellogg said would be either $3000 or $3500 a year) and would put an experienced man (Bailey has been serving in a similar capacity for SERA projects) in the post. We could then lend him enough of our staff to get along, and it would not be necessary to set up a new office."

Scott said that it might be possible to use some of the funds set up in the new budget for work relief to hire the WPA coordinator, but like Filbert said duties of constructing roads could not be delegated to someone other than the engineer without violating the charter.

Scott also fired a blast at the hiring of Arnold as bridge inspector, declaring the Lobitos bridge was just "one of seven routine" jobs constructed this year.

Mills Airport Wins $3,000,000 Of Federal Aid for Enlargement

Doolin Returns With Report Some Seventy Projects Will Be Undertaken At Cost of $100,000,000

Improvements to Mills Field, San Francisco's municipal airport in San Mateo county at San Bruno, which will include construction of a seaplane port capable of berthing the biggest transpacific clipper ships, a modern floodlighting system for night landings, and construction of a new administration building will be made in the near future with federal funds.

This was the announcement Tuesday of Capt. B. M. Doolin, airport manager and one of seven national regional supervisors of the country, functioning under the new Federal Bureau of Air Commerce, shortly after he flew in from Washington, D. C.

Classified as a "super-airport" by the federal government, Mills Field was allocated $3,000,000 in WPA funds for the improvement. Work will begin within 30 days, Doolin said.

The improvements will make the field a terminus for transpacific airlines, allowing the port to charge higher landing fees, and furnish garage and other services that will make it a self-sustaining unit of San Francisco's utility system.

The contemplated improvements are grading and paving of runways and service areas; improvement of drainage system; more adequate water system, connecting with San Francisco mains; landscaping, parking areas, the administration buildings, the seaplane port which will involve dredging of the harbor, construction of levees, filling areas required for hangars and other buildings, and miscellaneous construction.

Plans for the seaplane base include preparation of a site for a coast guard air station.

A similar improvement program had been proposed as a PWA undertaking, the utilities commission using budgeted funds for San Francisco's 55 per cent of the cost, but the WPA-Bureau of Air Commerce setup has been substituted, according to Doolin.

Acting as regional supervisor for the air commerce bureau, Doolin handles recommendations for airport improvements in California, Oregon, Washington, Nevada and Idaho. He said some 70 California landing fields would be improved under a $100,000,000 program directed by the bureau.

MENLO PARK GETS EXTRA INTEREST

$11,000 in City Fund Marked 'Inactive' By Council

Authorization to ear mark approximately $11,000 of the city's deposited funds as inactive—thereby securing an additional one-half of one per cent in interest—was given City Treasurer J. E. Ryan at Tuesdays meeting of the Menlo Park City Council.

The council granted Ryan's request after he had explained the state depositary law as it has been amended by the 1935 California Legislature.

A sum of approximately $3,000 will be maintained as an active fund, drawing 1 per cent interest, the rate specified in the revised law. Ryan further explained that the depository bank named by the city must have 30 days notice in which to transfer all, or part, of the $11,000—tagged as inactive—to the status of an active account.

Vacations over, all members of the council were present at last night's meeting.

Street Commissioner Irving Dunn was authorized to enter into an agreement with the county engineer's office for the compensation of certain county road equipment used on Santa Cruz avenue construction and improvement work.

AT THE REDWOOD

Uno Merkel and Charles Butterworth in "Baby Face Harrington," showing at the Little Redwood Theatre Sunday and Monday. On the same bill is "The Informer," a 4-star picture.

SCHOLARS NAMED AT HIGH SCHOOL

Records of Last Year Bring Students Honor

Mary Cowden, chairman of the Sequoia faculty scholarship committee today released the official list of names of members of the high school scholarship society for the second semester of 1934-35.

The honored students are:

Seniors: Jean Argo, Dorothy Boyer, Shirley Bowles, John Canning, John Chuck, Dorothy Barker, Dario de Benedictus, George Frykman, Bernice Gardiner, Robert Graham, William Gustilo, Bailey Lang, Joan Mabie, Mildred Mills, Mary Morisette, Gail Morrison, Robert Moulton, Jean Myers, Clifford Parks, Ruth Steiner, Robert Steiner, Herbert Sturz, Pearl Wentz, Virginia Wilmoth, Lauress Wise.

Juniors: Audrey Allen, Lois Brockman, John Crowley, Florence Eastburn, Louise Fish, Alfred Glathe, Sayuri Ishida, Virginia Knight, Fritz Kuffer, Barbara Moore, Kenneth Moulton, Byrne Pike, Frank Savage, Daniel Sisson, Douglas Webster.

Sophomores: Gum Chuck, eJanne Fahey, Dorothy Fodrea, Delores Feeley, Bill Grant, Alfred Newman, Russell Neuman, Jack Perrin, Eunice Philbrick, Rae Rowlands, Takeshi Shiba, Kirk Stevenson. Anna Zaepffel.

Low Freshmen: Warren Butterfield, Jack Duttweiler, Virginia Manning.

Freshmen: James Ballou, Anna Basset, Elizabeth Bond, Ellen Brockman, Dorothy Evans, James Fairley, Kazuo Karuja, Gladys Liddicoat, Marion Manners, Jack Marshall, Miriam Philbrick, Jack Schoellhomer, and Carolyn White.

SHOALS FUNDS ARE APPROVED

Total of $9,000,000 Federal Aid Given Towards Fair

Approval by President Roosevelt of a $3,040,120 WPA allotment for reclamation of Yerba Buena Shoals, site of the 1938 world's fair, was announced in San Francisco on Monday.

Another allotment of $1,296,000 for roads, landscaping and other works incident to the exposition will be approved in the near future by the president. Besides these two, the PWA has set its approval upon additional applications totaling $4,209,609 for construction of exposition buildings.

With final approval of all allotments, the federal government will have contributed approximately $9,000,000 toward the San Francisco fair. An additional $3,000,000 is being raised through private subscription.

At the same time it was revealed that the remainder of San Francisco's $25,000,000 work-relief program had been approved by the PWA and sent to the comptroller-general.

Richmond Teachers See Athletic Plant

Four physical education teachers from Richmond high and junior high schools spent Tuesday visiting the athletic facilities at Sequoia high school. They were Alice Bagley, Helen Loveridge, Philip Hempler and George Warrenburg.

Mildred Brown, Rosa Bloxham, Leonard Casanova and Ray Dimick of the local physical education department, and A. C. Argo, principal, were hosts to the visitors at a luncheon served by members of the home economics class in the model apartment of this department.

Ferrell Again Demands Cities Rout Gamblers

Final Warning Given In County Threat To Step In

Threatening to employ private investigators to ferret out gambling dens in San Mateo county municipalities if the cities themselves do not do so, Dist. Atty. Gilbert Ferrell Tuesday gave a final warning to representatives of 11 of the county's 12 incorporated cities that he intends to have the county "cleaned up."

Admittingly having called the conference because of unfavorable newspaper publicity for his office, the attorney pointed out that it was a duty of his and the sheriff's offices to enforce state laws irrespective of boundary lines.

"The district attorney is not primarily an evidence-gathering officer," Ferrell said today he told the meeting, which was closed to the general public.

"I look to the sheriff's office and to local police to conduct investigations, and then to rout gamblers. But if this isn't done, this office will employ private investigators, at the expense of the people, and endeavor itself to clean out the gambling element."

UP TO CITIES FIRST

Ferrell, after outlining the duties of his office in relation to city officials early in his hour's talk, said that he felt primary responsibility of law enforcement was up to cities, but repeated his earlier warning that he intended seeing the cities clean.

Attending from Redwood City were Mayor Charles G. Lambert and Police Chief C. L. Collins, both of whom spoke after Ferrell had finished. Both declared they believed this city was clean of gambling despite recent metropolitan newspaper charges that "bookies" were operating here.

Representing Bayshore City, where Ferrell recently raided the new bingo palace and arrested 10 operators, date for whose appearance in court has not as yet been fixed, City Attorney Samuel J. Jones said he felt more latitude should be taken in the county and that such games should be permitted to run because of the employment they provide.

Games which do not seriously violate the law should be allowed to operate, he said he believed. He disclosed that since the bingo game was closed the operators have been "begging" to be allowed to return to work.

FERRELL STEADFAST

Other views contrary to those of the district attorney were expressed, he disclosed, but he remained steadfast in his determination, Ferrell reported.

"I want to serve notice that we don't want the gambling fraternity to take undue advantage of climatic advantages here, for even though we have a fine climate, it won't be healthy for them," Ferrell jocularly but seriously declared.

Besides mayors and police chiefs from all towns except Lawndale, the meeting, held in the courthouse, was attended by County Manager Walter T. Kellogg and Supervisors Albert Witt, Manuel Francis and Walter High.

Atherton Rejects McCormick Road As City Street

Atherton's town council at its meeting Tuesday afternoon voted down a request from certain property owners on McCormick avenue that the city take over the thoroughfare and maintain it.

Council members rather generally agreed that McCormick avenue was not a public road and one councilman went so far as to describe it as "a cul de sac."

In a written communication City Engineer James S. James informed the council that he has been appointed San Mateo county manager for the Public Works Administration, and requested a three months' leave of absence. Councilman J. B. Howell suggested that James' request be tabled inasmuch as the city engineer has been employed on a part-time basis and he has performed his duties faithfully.

A request from Harry E. Miller for permission to build an additional stall to his stable at Selby Lane and Tuscaloosa drive was granted.

The council authorized commencement of a preliminary survey of Isabel avenue and the annual fall cleaning of Atherton creek.

Tells of High Costs Back Home

Visitors to America's Exposition from Australia congratulated Ford Exposition officials on their reproduction of the Western Highway in the Roads of the Pacific, Balboa Park, San Diego. Left to right: Rees Williams, former Australian resident, now with Ford Motor Company, Long Beach Branch; A. Thompson, Manager, Ford Motor Company of Australia; Mrs. A. Thompson and R. J. Hooper of Ford Motor Company of Australia.

"Ford automobiles sell for from $1400 to $1800; gasoline sells for about 50 cents an imperial gallon; automobile licenses cost approximately $43 a year. People in the United States have no idea what it can cost to buy and operate a car."

Such was the news brought to the Ford Exposition by Mr. A. Thompson, manager of the Ford Motor Company of Australia, on his visit to America's Exposition, San Diego.

Mr. and Mrs. Thompson are making a tour around the world and visited the Ford Exposition building while in the Southwest. They drove around the Roads of the Pacific and complimented Ford Exposition officials on the splendid reproduction of the Western Highway which is included among the fourteen roads in the canyon south of the Ford building.

"The Western Highway in the Roads of the Pacific is an excellent duplication of the original in our territory in Australia," Mr. Thompson exclaimed. "I am familiar with the original road which runs between Ballarat and Melbourne which was built in 1852 to transport gold and is one of the most famous roads in Pacific coast countries."

Politics Charge Laid to Ferrell In Brief Answering Scott's Suit

Dist. Atty. Gilbert Ferrell was drawn into the appellate court suit of Carl R. Scott to retain the county engineering position today when attorneys for Urban S. Marshall, contestant to the position, in filing a 51-page printed brief charged Ferrell with "playing politics."

The brief, submitted after one presented the appellate court by Attorneys Fred C. Comba and Ernest Wilson on behalf of Scott, was filed in the court by Attorneys Joseph J. Bullock and Vincent W. Hallinan.

After dwelling on the resignation submitted by Scott to County Executive Walter Kellogg on the day of his appointment to the county office, the brief accuses District Attorney Ferrell of "misleading the executive as to the validity of the resignation," and by giving "this erroneous advice" the "district attorney has been the cause of considerable mischief."

The brief bemoans "the unfortunate situation arising from the district attorney playing politics in a matter of such concern to the county," and declares that as a result the case at issue "places an especial value upon a decision of this (the appellate) court upon the question of the executive's power of removal of his appointees."

In the brief, Engineer Scott is virtually accused of perjury when in these words the court is asked to recognize the resignation Scott claims was given him before his appointment to the office January 17 and Marshall claims was given subsequently:

"If his promise to Kellogg to resign, upon Marshall's becoming qualified, supported by a tender of his written resignation, upon the promise of which he obtained the office, can be ignored by him and if the considerations of honesty and fair dealing involved in that transaction are insufficient to move him, why should one assume that he would not stoop to a perjury to sustain himself in an office which he is willing to retain by such duplicity?"

At that, Bullock and Hallinan admit the resignation "is superfluous and that the removal by the county executive is a sufficient answer to the petition."

The petition also describes Scott's repossession of the office after Marshall and Kellogg had taken it from him as having been done "aided by the sheriff and his deputies, the latter armed with guns and tear gas bombs."

The appellate court has given Scott 10 days in which to file an answer to this latest brief, and then gives Marshall five days in which to reply, at which time the suit will stand submitted, and a decision on title to the disputed office can be expected anytime within 90 days. Besides determination of title, Scott asks $1,620 salary.

Attorney Bullock asid he expected the court to rule at once on the case after receiving all briefs, which would be in two or three weeks.

Fall on Tub Faucet Results in Injury

BURLINGAME, Sept. 24.—After falling in the bath tub and striking her head on the faucets, Mrs. Elizabeth Skinner, Burlingame florist, was in the Mills Memorial Hospital in a "serious condition."

The accident occurred Friday but it was not thought that Mrs. Skinner had injured herself seriously until Saturday night when she complained of splitting headaches and was rushed to the hospital. There X-rays disclosed the fracture.

The South American "cavebird" produces butter. It develops a thick layer of fat, which furnishes the Indians with an oil which they use as butter.

S. M. Doctor Breaks Shoulder in Wreck

SAN MATEO, Sept. 25 — Dr. Harold Groth of San Mateo was in the Mills Memorial Hospital today suffering from a fractured shoulder after overturning in an automobile between San Carlos and Redwood City at 4 a. m. today.

His wife, who was driving, swerved to avoid a collision and the machine turned turtle.

APRIL 1 WEDDING VOIDED

Because she had "been a wife in name only," Hazel Daly late yesterday was granted an annulment of her April 1 marriage to Carroll Daly, San Francisco garage man, by Superior Judge A. R. Cotton.

Rockwell Field At San Diego Goes to Navy

Ten Martin Bombers, Other Planes, 600 Men Due Soon

Approximately 45 officers and 550 enlisted men will be involved in the transfer of Rockwell Field army air facilities to Sunnyvale, officers disclosed in San Diego Tuesday, the United Press said, after Secretary of War George H. Dern revealed the proposed exchange in Oakland on Monday.

Ten huge Martin bombers, of the 19th bombardment group, will be brought to the northern field. Other planes involved in the shift are three Douglass amphibians and six observation planes. There are no pursuit ships based there.

Transfer of the army group to Sunnyvale marks the end of a long controversy between the army and navy over use of North Island there. The naval service now will have exclusive use of the island.

The possibility was foreseen that Redwood City's hopes of securing a navy seaplane base at Bair Island in Redwood creek is strengthened by the withdrawal from Sunnyvale. If another base is established by the navy in the bay area, it might be located here, it was seen.

Announcement of the transfer was made by Secretary Dern in indicating the army plans to make Sunnyvale its main aviation base on the Pacific coast and one of the strongest in the nation.

The change will be made in the very near future, as soon as details are worked out, he said.

The navy already has abandoned Sunnyvale as a dirigible base, since no more dirigibles are under contemplation for the Pacific Coast.

The Sunnyvale-Rockwell field trade, according to Dern, will be part of a general move, recommended by Gen. Douglas MacArthur in his farewell report as chief of staff, for a world model army of concentrated strength.

The secretary, accompanied by his wife and son, James, was to sail today from San Francisco on the cruiser Chester for Manila where on November 15 Dern will represent President Roosevelt at the ceremony inaugurating the Philippine government.

He will inspect the military post at Hawaii and spend four days in Japan and four in China.

Special Services Set for October At Local Church

October "Loyalty Days" in the First Congregational Church will be celebrated with a number of special services, to be followed November 6 and 7 by the fall festival, the Rev. Norman W. Pendleton, pastor, announced today.

On Thursday, October 3, from 6:30 to 8 p.m. "The Oxford Movement and The New America" will be discussed by Dr. Edgar A. Lowther of Temple church, San Francisco, who has just returned from Oxford, England. This will be a dinner meeting, with Mrs. A. Steffins acting as chairman. Those who cannot come for the dinner, price of which is 35 cents, are welcome for the lecture, which will begin at 7:20 p.m., according to Rev. Pendleton.

On Sunday, October 6, roll call Sunday will be celebrated with the pastor speaking on "Why Bother With the Church?" The following Sunday he will speak on "Keeping the Heart Warm in a Cold Time." This service will be under the auspices of the Woman's Circle and Plymouth Guild. Sunday, October 20, will be in charge of the men of the church, with the subject being "Diagnosing Today." The last Sunday of the month will be "Family Day," with the topic being "The Joy of Putting First Things First."

J. B. Perry Home Sold to Dr. Morse

Sale of the J. B. Perry home at Grand and Hopkins streets to Dr. and Mrs. Charles O. Morse for $15,000 was revealed today by C. G Lambert, Redwood City's mayor-realtor, through whom the transaction was handled. The Morses plan to make their home in the new location in the near future.

DRINK PERMITS ASKED

Applications of F. D. Bernard, Half Moon Bay; E. A. Kellum, Menlo Park; L. V. Thornley, Kings Mountain, and F. Meriales, Pescadero, for soft drink permits, were postponed to October 7 by the board of supervisors.

GENERAL SOLVES STATIC PROBLEM

Very shocking!

So thought B. A. Muir, local manager for General Petroleum

B. A. MUIR
His Problem Solved

Corporation, when he learned that every time one fo his tank trucks reached the Live Oak Service Station, Palo Alto, it was so heavily charged with static electricity that it arced a spark at least an inch away, and anyone close to the truck got a jolt worth remembering.

A distress call was sent to division engineering headquarters at Oakland as the condition constituted a menace. Loaded with Mobilgas and Mobiloil as it was, the tank was a constant potential explosion, and fast action was required. For three weeks, the General Petroleum engineers struggled with the problem and the city ngineer of Palo Alto took a try at it and finally Stanford University was asked for aid. A Stanford professor, equipped with a potentiometer, went over every inch of the truck and, strangely enough, finally announced that the trouble lay in four of the tires, even if rubber is a non-conductor of electricity.

Skeptic that he was, Muir had the four tires put on another truck and replaced them with tires of another make and the static was gone, but it immediately developed on the other truck.

Final analysis determined a peculiar fact, namely, that the pavement in that neighborhood was of a quality of asphalt that was an absolute non-conductor, so that the electricity had nowhere to go.

But that's all over now, and once again Muir can sleep at night, provided he gets home.

Richard H. Jury Very Much Alive He Tells World

Richard H. Jury, former San Matean now living in Sausalito, who was reported as dead in an article appearing in San Mateo telling of the wiping out of the first bonds issued by the city, has corrected the erroneous report in a letter to City Treasurer Charles Ginnever, San Mateo, and forwarded a copy to the Gazette. He says in the letter to Ginnever:

"The newspaper article concluded with the recital of the fact that the bonds were signed by A. H. Payson, president; W. F. Herbst, treasurer, and R. H. Jury, clerk, and that of these three only Herbst is alive today.

"May I be permitted to take issue with the last paragraph. While I realize that Mr. Payson and Mr. Herbst, both very estimable gentlemen and valued factors in the early day efforts to build a foundation for the greatness of San Mateo of today, have passed away, I neved knew until now that I am no longer among the living.

"However, I think I am, and I take untold pleasure in proclaiming my belief to the wide, wide world.

"Please give my most sincere felicitations to my many old friends of that county, and may I offer you my kindest regards—even though it may appear to be a voice from beyond the grave?"

New Transit Link In S. F. Considered

A plan to connect the proposed "Plan X" bridge terminal with the Third and Townsend railroad depot to provide a link to speed transit from the peninsula to San Francisco was being discussed in the bay city on Wednesday by county planning commission members and San Franciscans interested in the subject.

Drivers who find it necessary to change a tire on the road should park off the pavement and avoid the possibility of an accident.

Suit Against Rand Under Submission

Superior Judge Maxwell McNutt, after a hearing Monday afternoon, took under submission the request of four brewing companies for an injunction to prevent Ray C. Rand, San Mateo market owner, from selling beer at what they claim is below cost.

The breweries allege Rand's practice is in violation of the Fair Trade Laws.

CLUB WILL INSTALL

SAN CARLOS, Sept. 24.—Officers to carry on the work of the Community Club for 1935-36 will take their official seats this evening at the regular meeting of the club. Major Glen Gorton, outgoing president, will conduct installation ceremonies. New officers include: president, Harold L. Jones; women's vice-president, Mrs. Norman H. Martin; men's vice-president, N. L. Sudduth; secretary, R. B. Fodrea; treasurer, B. A. Lindberg; sergeant at arms, H. A. Brown.

UNLICENSED SALE CHARGED

DALY CITY, Sept. 23.—Leo Nani was to appear today before Judge Wade H. Clay to answer charges of operating a liquor store on Pedro avenue, Colma, without a liquor license. Nani was arrested last week by state agents and released on $100 bail.

Three Suspects Admit Burglary of Market

Waiving time and pleading guilty to second degree burglary charges, three of the suspects held in the recent entry of the California Market Monday afternoon asked for probation when brought before Superior Judge Maxwell McNutt, who will report in two weeks.

The fourth member of the quartet, Fred Stevenson, 30, was given until Friday to enter a plea to the charge. He is accused of actually entering the store, while George Cusack, 26; James Davis, 29, and Eddie Shea, 23, were said to be his lookouts who fled when officers approached.

START WORK ON RADIO

BURLINGAME, Sept. 23.—Clarence Wolfe, Burlingame electrician, has been instructed by the police today to start work on the new two-way police radio system which is to be installed on the department's cars and motorcycles.

Permit for Patrol's New Building Issued

Early construction of the new home for the State Highway Patrol was seen today when P. E. Brand secured a permit from Building Inspector I. C. Drathman at the city hall to construct a $4,000 building at 601 Marshall avenue, at Middlefield road.

The state has taken a lease on the property, owned by Brand, who will construct the building.

Month-Old Baby Dies Suddenly at Home

Funeral services for Ellena Lopez, month-old daughter of Mr. and Mrs. J. Manuel Lopez, were held at 11 o'clock on Monday at the Layng & Tinney Funeral Home. The baby died suddenly Saturday morning at the family home on Stanford avenue, south of this city. Interment followed in Union Cemetery.

Emma Fisher Rites Held in Burlingame

BURLINGAME, Sept. 24.—Death today had ended the several months' illness of Mrs. Emma E. Fisher of Burlingame. A resident of this city for 28 years, Mrs. Fisher was to be buried at Cypress Lawn Cemetery following services at the Frank Wyckoff mortuary here today. Edward Fisher, her husband, and two sisters sur-

Charter Violation Charged Supervisors

Attorney Fred W. Comba, counsel for County Engineer Carl Scott, today completed saying what the board of supervisors refused to hear him say at the meeting Monday, and in so doing charged that the board was violating two provisions of the county charter.

The attorney, speaking in the presence of Engineer Scott, said the use of state gasoline tax funds for other than building roads and the employing of H. W. Arnold as bridge inspector when the charter provides that only the engineer can employ men in his department both were contrary to charter provisions.

"The charter provides that the road department shall be centralized under the engineer, entirely out of the hands of the supervisors," Comba maintained.

He pointed out also that some nine other bridges have been built in recent months by the road department without aid of an inspector.

S. F. GETS GOLF PROPERTY

Transfer of the clubhouse, caddy house, tool house and other buildings of the Crystal Springs Golf and Country Club in the north end of San Mateo county to the City and County of San Francisco was disclosed today when a deed covering the property was filed in the office of Recorder T. C. Rice.

Landlady Bequeathed Rasmussen's Estate

The $4700 estate left by John Carl Rasmussen, 66, when he died in San Mateo day before yesterday, was willed in its entirety to his landlady, Elizabeth Bosshard Ferreira, with whom he was eating when stricken by a heart attack, his will, filed for probate in superior court today, revealed. Dated May 15, 1935, the will made no provision for a brother and four sisters, all of whom live in Copenhagen, Denmark.

FLATS REQUIRE DRAINING

Mudflats along the Bayshore will continue to give off odors until they are drained, Dr. Charles C. Gans, county health officer, had reported today to the board of supervisors.

LION ATTACKS ACTOR

HOLLYWOOD, Sept. 24 (AP) — Charles Bickford, motion picture actor, was attacked by a large African lion here during the filming of a scene and received a deep bite in the back of the neck.

1¢ for electricity

WILL IRON

1 shirt, 2 nighties

3 panties, 4 handkerchiefs

Is your electric bill higher than it used to be?

And do you still think of it as "a light bill"?

That's what it was once. Now lights are only a part of it. Now it includes a few cents for the

RADIO
PERCOLATOR
TOASTER
VACUUM SWEEPER
HAND IRON
WASHING MACHINE

Maybe it includes an electric refrigerator. Then you have no bill for ice.

Or a range — and you have no bill for other fuel.

Electricity is Your Home's Biggest Bargain.

SAD iron days became glad iron days when the sleek and shiny electric iron came into women's hands. Perhaps in your home it was the first electric servant you put to use. Right then your electric bill became more than a light bill.

Now for just a few pennies a day, about the price of a package of cigarettes, or a magazine or a piece of pie, electricity gives your home many services besides lighting. It "perks" coffee, makes ice, beats batter, crisps toast, curls hair, sweeps rugs, runs electric clocks and radios . . . well, you can probably add more to this list.

Really, now, isn't electricity making life a lot easier in your home since the day you first used an electric iron? What else gives you such full value for your money?

How We Can Give You These Savings

We Safeway grocers enjoy making your food-shopping easier, more economical.

It's possible because the big Safeway family of food experts are working right with us.

Living out on the farms, long-standing friends of the producers—our buyers can choose the finest fruits, vegetables, produce from each crop, and pay fair prices for them.

Also, there are trained shippers, testers, home economists cooperating. All pulling together, they can save food-trading charges and prevent waste in getting fine quality foods to your table.

That's why buying from your Safeway grocer gives you the benefit of real savings all the time.

4 Hours to RUN a WANT AD

First PICK UP YOUR TELEPHONE

Second CALL REDWOOD 2 ---- 0 ---- 0 ---- 0

Third TELL AD-TAKER WHAT YOU WANT

There's no mystery or hocus-pocus about putting an ad in The Tribune. It's as easy as falling off a log. You want to sell something or hire somebody or rent a room or find a job and the quickest, cheapest, surest way is with a Tribune Want Ad.

Pick up your phone, call Redwood 2000, and tell your story to the Ad Taker. She will write your ad for you on the spot. With short, easy-to-understand words she will save you money and get you more results from your ad. She will read your ad back to you over the phone for your O.K. Not a chance of a thing going wrong.

That's all there is to it. And if you are selling something that someone wants, or want something that somebody has—it's dollars to doughnuts you'll get results! Because The Redwood Tribune reaches nearly everyone in Redwood City. And because wise people turn to the Want Ads first!

USE THE WANT ADS

'CHAOS WITHOUT CONSTITUTION'

Judge McNutt Tells Veterans Tendency Back to Document

Chaos or constitution.

That might well have been the subject for Superior Judge Maxwell McNutt's talk last night in a belated Constitution Day service sponsored by the local American Legion auxiliary and attended by a small group of veterans, their ladies and friends, in the veterans' hall here.

For Judge McNutt, after giving an enlightening discourse on the development of the United States document, which he believes is "the greatest instrument ever struck off by the brain of man at one time," declared that if the constitution were given up a chaotic condition would surely result.

700-YEAR DOCUMENT

But after showing that the constitution actually was the outgrowth of a number of other documents since the Magna Charta in 1215, the jurist expressed confidence that the "700-year-old document" would not fall.

"The tendency now is back to the constitution, not away," he declared.

And even though the American people are volatile, inclined to go from one extreme to the other, they would never stand for dictatorship and consequent despotism or tyranny which would result should constitutional government break down, according to the speaker.

"Threats of Communism or Fascism can never stampede the American people into throwing over the constitution. I can't even take seriously the attacks on the constitution from these sources."

Just as "our antecedents" have fought for principles of the constitution for the past 700 years, so will the children of today—the leaders of tomorrow—fight for it, Judge McNutt believes.

TELLS OF DEVELOPMENT

In explaining how the constitution developed, Judge McNutt said that although it was made at a convention in 1787 the genesis of the document was founded in the Magna Charta, the English habeas corpus act of 1679, the first declaration of rights in 1764, the declaration of independence and the articles of confederation.

He told of the provisions of each of the documents he mentioned, and of their strong points and weaknesses.

In concluding his address, Judge McNutt upheld the rights of the courts to determine constitutionality of laws, and declared that the abolition of the court's right to interpret the constitution would be a definite step towards the document's overthrow.

"If we take from the court the power to interpret laws, we would be in a position of giving monarchical powers to the president, with no capacity left to check him," the judge said.

OTHERS ALSO TALK

Preceding Mr. McNutt's talk, Attorney Charles M. Frey, senior past commander of the local Legion post, discussed the constitution in its relationship to the veteran organizations, and told also of the work being done by the Legion and auxiliary to make better citizens of residents of this country.

Entertainment at the meeting consisted of a highly-enjoyed reading, "When Grandma Was a Girl," by little Miss Shirley Bourquin, followed by a piano solo, and three songs by the Kiwanis-Legion quartet, composed of Messrs. Herman Phillips, Duncan Reynard, Wilbur Doxsee and Fred Gatchel. The numbers sung were "Swing Low Sweet Chariot"; "Workin' on the Railroad," and "Vive La Compagnie."

Others who spoke were Frank Bloom of Burlingame, telling of the coming county fiesta; Legion Commander Charles Becker; Florence Donnelly, vice president of the eighth auxiliary district, who presided during the program, and Mrs. Mary Hayes, auxiliary president, who conducted the meeting.

Negri Suffers Burns In Accident at Galt

Joseph Raymond ("Fatso") Negri, former Baby Face Nelson gangster who was held in jail in Redwood City for some time and for whom fears had been expressed lately when he failed to make his regular report to Federal Probation Officer Upton in San Francisco, is now in a Sacramento hospital, according to the United Press. Negri was burned in an automobile accident near Galt, which occurred when his car was struck by another near Galt. Both machines turned over and caught fire, it was reported.

INDICT COIN SUSPECT

George Von Glahn, arrested near Belmont in possession of several spurious 50-cent pieces, was being held in San Francisco jail today in lieu of $5000 bail following his indictment by a federal grand jury for possession of molds and counterfeit coins.

CATCHING COLD?

At the first warning sneeze — quick — a few drops up each nostril. Its timely use helps prevent many colds.

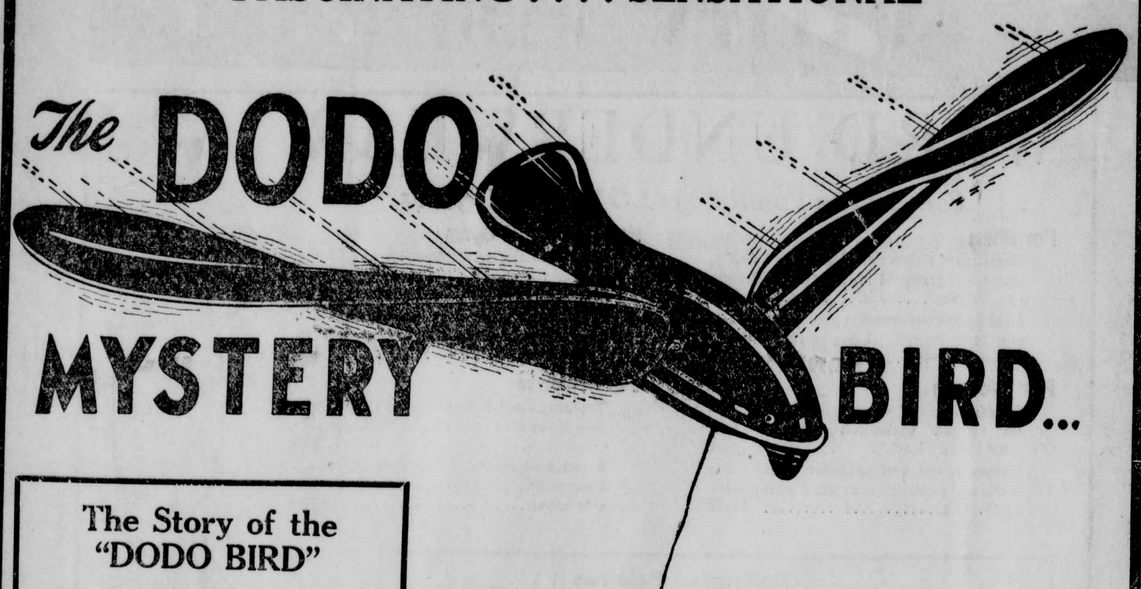
SKY FISHING
FASCINATING.... SENSATIONAL



The DODO MYSTERY BIRD...

The Story of the "DODO BIRD"

Kite Flying is one of the oldest sports known to mankind. For over 2000 years there has never been any improvement made in the principle or idea of kites. Then came the DODO MYSTERY BIRD, designed and perfected by one of America's foremost Aero-Dynamic Engineers, sturdily constructed, virtually crash proof, self stabilizing and using WIND ALONE for its motivating power and capable of sustained flights for an indefinite period.

Famous Aviators have said that they would like to see this amazing scientific toy in the hands of every air-minded boy and man in America, as it gives them a knowledge and mastery of air currents that can be gained in no other way. SKY FLYING with the DODO MYSTERY BIRD is the most fascinating of all boy sports, and no one is too old but what they will get an immense thrill when they fly the DODO MYSTERY BIRD.

ROD and REEL

The ROD and REEL is of the highest class of workmanship and something that not only the boy but his Dad as well will be mighty proud to own. Just think of owning a standard 7' STEEL FISHING ROD with a Standard REEL of the 2-speed drag type; something that will last a lifetime and something that you can not only fly the DODO MYSTERY BIRD with, but use as a fishing rod as well. The DODO MYSTERY BIRD will fly the same as a kite, but with the Rod and Reel it can be flown much more successfully and with a little practice, using the Rod and Reel it can be made to perform "stunts" that are almost uncanny.

This Rod and Reel Can Be used for Fishing

$2,000,000 SEEN FOR FAIR PROJECT

County Will Be Host To Livestock Division

Setting Sunday, October 20, at 11 a. m. as date for the dedication ceremonies, which Governor Merriam will attend, 150 men met Tuesday afternoon in San Francisco to formulate plans for the $2,000,000 livestock division of the coming 1938 World's Fair to be housed in the agricultural pavilion in Visitacion Valley, in the north end of San Mateo county.

Included among those at the meeting were Secretary Charles Paine and Vice President Harry Ramsay of the California State Fair Association; President Hugh Walker of the Livermore Rodeo; President Arthur Hebbron of the Salinas Rodeo; Charles F. Paige of the San Francisco Chamber of Commerce, President C. H. Sooy of Agricultural District 1-A, sponsor of the project; representatives of all San Francisco banks; Supervisor Albert Witt of San Mateo county; Fred Bixby, Long Beach; Douglas Pryor, Humboldt; Charles Hawkins, Hollister; all cattle men who promised exhibits, and other prominent people. Supervisor Andrew Gallagher of San Francisco presided at the meeting and was named permanent chairman of the committee in charge of the ceremonies.

Definite assurance the livestock show in the valley, expected to be the forerunner of annual expositions, would be part of the world's fair was given.

It was revealed that $750,000, $50,000 of which was contributed from this county, is now available to sponsor the project, and an application for $1,287,000 PWA funds has been submitted to Washington, according to Sooy. It is firmly believed the application will be approved, but in event it isn't funds probably will be supplied from the general exposition funds, Sooy declared.

Vice presidents named in charge of the ceremony included Supervisor Witt, Attorney W. H. Morrissey of Redwood City; all county department heads, the two superior judges, President Clark of the Federation of Improvement Clubs; Edward Brady and Joseph Cambiano, union labor leaders, President Sutter of the Visitacion Valley Improvement Club, and Emille Restani.

Entertainment will be provided at the ceremonies. Included will be selections by the San Francisco municipal band.

Already preliminary work has been done on the 63-acre site, and work on the spur track is expected to get underway within a few days, according to Sooy.

'Old Saw Filer,' Known on Coast, Falls Into Sea

The body of a man known only as "the old saw filer" was found Monday afternoon by a fisherman at the foot of Pedro Point, on the coastside, where the man, believed to have been about 75 years of age, apparently had rolled off the mountain. It was believed he fell or tripped while walking on the point about 200 feet above the sea, and fell into the water.

The body was found on the edge of the surf.

While the name of the aged man is not known, for a number of years he has walked from town to town on the coast filing saws and sharpening scissors, it was reported, and was known to many coastside residents.

Billings Views S. F. First Time In Two Decades

FOLSOM PRISON, Sept. 24 (UP)—Warren K. Billings emerged from Folsom prison today, took his first breath of "outside" air in 19 years, and started for San Francisco to testify in the habeas corpus proceedings brought by Tom Mooney, his partner in the San Francisco Preparedness Day bombing escapade.

The talkative little man who advocated labor trouble during early years of the World War strode through the main prison gate with Warden Court Smith and entered the warden's automobile, driven by Guard J. E. Pruitt. No one else accompanied them on the matter-of-fact drive to the city.

Billings said he bore no animosity towards Mooney.

"You can disagree with a fellow and still be friends," he said.

Premiums Bring Flood of Votes In Queen Race

Bonuses of 500 votes offered by the queen contest committee of the San Mateo County Floral and Products Fiesta for completed coupon books turned in Monday brought a flood of votes—a flood that put the northend cities of the county well ahead of the southend.

Standings of the different districts, according to Hugh Barrett Dobbs, manager of the contest, are:

1. Daly City, Colma and Lawndale.
2. South San Francisco, Bayshore and Brisbane.
3. Burlingame
4. San Mateo
5. Coastside
6. Redwood City, San Carlos and Belmont (tied).
7. Menlo Park, North and East Palo Alto.

From the other districts no returns were given, "Captain Dobbsie" said.

TO BUILD $10,000 HOME

Dog Poisoner Sought As 10th Victim Dies

BURLINGAME, Sept. 24—Burlingame and San Mateo police were searching today for a dog poisoner who has been alternating his activities between the two cities, and his methods between ground glass in hamburger and strychnine.

Ten dogs have been poisoned in the last 10 days, police said.

MARINES IN ABYSSINIA

The story of the United States Marines in Abyssinia, the expedition of 1903, will be told again by Major T. Talmage Taylor, United States Marine Corps, over station KLX on Wednesday, October 2, at 8:45 p.m. Abyssinia, or Ethiopia, is a country of peculiar geographical setting and the story of the marines in this distant land should prove entertaining. Major Taylor's talk will be sponsored by the California State Chamber of Commerce.

TOWNSEND PLAN PASSAGE SEEN

Rev. Pendleton Tells Of Three-Fold System

Speaking before a packed junior college auditorium, Congressman John J. McGrath Saturday night told Townsend Plan advocates in San Mateo he believed the plan could be "sold" to President Roosevelt and that he felt the next session of congress would take favorable action upon the proposal sponsored by Dr. F. E. Townsend.

The congressman, who with the Rev. Norman W. Pendleton of Redwood City discussed nearly all phases of the plan and its progress to date, told of his work in congress for the program. He discussed his voting for it, his work in committee, on the floor of the house and in conference. While a few minor changes are necessary, in his belief, the plan is sound without major alterations, McGrath said he was convinced.

The representative from this district assured listeners he would continue working for the movement, described later by Rev. Pendleton as a national recovery movement, not a pension plan.

The local clergyman declared the plan was three-fold, and that without understanding it all, it was difficult to see its merits. But, when considered in its entirety, the Townsend plan would convince anyone it would make unnecessary 80 per cent of the present charity tax, 50 per cent of the crime tax and all of the new taxes which are to "be piled on us by the so-called security bill."

"The plan is designed to retire the aged with dignity and honor, create employment for youth, and through a stabilized circulation and expanded purchasing power, take control of the circulation of money out of a few financial institutions," Dr. Pendleton said. "By creating a revolving fund acting as an economic gyro, it will inject into the business system monthly a stabilized purchasing power through the spending of pensions and spending of the newly-employed which will bring frozen funds out of banks into investments thereby creating a three-fold flood of purchasing power on a stabilized basis exceeding the prosperity of 1929."

As it is now, in the economic system, according to Rev. Pendleton, production proceeds faster than the people's capacity to purchase. Therefore, ever so often production crashes down when it gets too far ahead of purchases.

"The whole scheme is aimed at the expansion of purchasing power, and would be a tremendous relief to the taxpayer," said Rev. Pendleton.

B. L. Grow presided over the meeting, attendants at which manifested their interest in the subject by asking a number of questions at the end of the talks by McGrath and Pendleton.

STATION ATTENDANT HURT

BURLINGAME, Sept. 24. — Smashing into the rear of a truck on the Bayshore highway south of Mills Field last evening, Joseph A. Hulme, 24, oil station attendant, was cut and bruised. He was treated at the South San Francisco Hospital and then taken to his home in Burlingame. Driver of the truck was T. W. Neely of San Jose. He was uninjured.

MENLO PARK NEWS

Father Flatley, former assistant pastor of the Church of the Nativity, was recently appointed pastor of the Catholic church at Newark. Father Falvey, who held this position, has taken charge of the Pleasanton parish. The priest is a former resident of San Mateo where his family lives.

The dove season opened Saturday for 20 days. Many years ago the peninsula was invaded every season with large numbers of the cooing dove, but of late years only a few come here, going further south to the grain fields. Local hunters report poor success in securing birds.

John Agar, a prominent and wealthy resident of New York, passed away at his home there last Saturday. The deceased, over a quarter of a century ago, married Miss Macdonough, who grew to womanhood in Menlo Park where her parents lived for some time. Mrs. W. Macdonough, her mother, was a sister of the late William O'Brient, well-known as William O'Brien, well-known as firm of Flood, O'Brien, MacKay and Fair. Two sisters, Mrs. Macdonough and Mrs. Caleman, inherited the greater portion of the miner's vast wealth. Mrs. Coleman erected a mansion in the Coleman tract, now Menlo Oaks, which she never occupied. It is now used as a school for children. Mr. Agar was a brother-in-law of the late W. B. Macdonough who was owner of the Ormondale Stock Farm at Portola. A brother of the stockman and owner of race horses, Joseph Macdonough, passed away in New York some years ago. His son is in charge of the famous farm for several years. Mr. Agar was a financial wizard of New York and was numbered among the wealthiest men of the country.

The many friends of Miss Grace Partee were shocked to learn of her death last Monday. Miss Partee had been ailing for several months at her home here. Her untimely death was not anticipated by her large circle of friends on the peninsula. The deceased was a native of San Rafael where her family had resided since pioneer days. She had been a resident of Menlo Park for over 30 years and during that time was identified with social, civic and fratenal interests of the community and was popular and highly respected by all who knew and admired her. The funeral yesterday from the Catholic church was largely attended by sorrowing friends and relatives. Miss Partee is survived by her sister, Mrs. C. M. Weeden, and two nephews, Dr. Joseph Weeden and William Weeden of Menlo Park. Her brother, A. B. Partee, died some years ago near Stockton. Interment was in Holy Cross Cemetery, Menlo Park.

Golden Rule Held Prejudice Excuse By New Minister

"The Golden Rule is the mental excuse for the propagation of prejudices and the promotion of the easy life," said the Rev. Schuyler Pratt, newly-appointed rector at St. Peter's Episcopal Church in his sermon Sunday, on "The Golden Rule of the Spirit."

"Sentimentalists who utterly fail to appreciate the heroic drive in Jesus' rule quote the comparable negative forms of the idea, as they have been given in other religions, imagining that they have the the same meaning. Not only are the meanings different, but they approach the problem of life in exactly opposite ways.

"All ancient religion was the opportunity and joy of the strong, the healthy, the confident. Physical or ceremonial uncleanness, which meant situations of pain and of need, excluded one from the participation in the religious activities. Religion was not a support in time of need, but a social guide and restraint on the strong, without which the weak would grievously have suffered. 'Anger,' 'Hate,' 'Suffer,' 'Wrong,' are the words describing the situations in which the negative rule, 'What thou hatest, do to no one' was a true teaching from God. If men and nations which are selfish, deceitful, violent would follow this, peace would be saved."

ALLEN GIVEN POST

Lester E. Allen today had been named by the board of supervisors part-time inspector of flower shipments leaving Redwood City and other nearby points.

Four Subjects Covered at Meet Of Toastmasters

Subjects including Ethiopia, general science, politics and travel were covered on Monday at the weekly meeting of the local Toastmasters' Club at the Methodist Church.

In a 10-minute speech Fred Schmitz covered the historical background of the present dispute between Ethiopia and Italy and pointed out how England's interests were enmeshed in the struggle because Briton feared the cutting off or control of the White Nile which takes its source in Lake Tana in Ethiopia and flows through Anglo-Egyptian Sudan.

After Schmitz had looked into the past, Andrew Spinas looked into the future—the political future—discussing qualities which will be required in the next Republican candidate for the presidency. Huey Long, Spinas said, was eliminated from the political picture by gun shot; Father Coughlin by his clerical robe; and Dr. F. E. Townsend by his advanced age. Former President Herbert Hoover had not yet recovered from his crushing defeat in the last presidential election, Spinas declared.

"Whoever the G.O.P. candidate is," Spinas concluded, "let us hope he has a good political philosophy rather than mere personality."

M. W. Tackitt, in a five-minute impromptu talk, told toastmasters of the new 200-inch telescope being constructed at New Jersey, so powerful it would magnify 200,000 times and bring observers within an optical 19 miles of the moon.

Fred Glover, in another impromptu speech, told of Spanish customs and the complications which foreigners can get themselves into by attempts to imitate the "gracious" Spanish manners.

Brenton Werder Wed To Australia Girl

Word has been received here of the marriage in Sidney, Australia, on September 9 of Brenton Werder, 31-year-old son of Fire Warden and Mrs. Bert L. Werder, and Miss Frieda Avery of Sidney.

Young Werder, well-known in Redwood City where his home is located and where he was formerly a volunteer fireman, met Miss Avery during one of his stays in Australia. He is employed in the engine room of the steamship Monterey of the Matson line, and during the few years he has been engaged in this work has made 17 trips between San Francisco and Australia.

The bride is making plans to leave Sidney for this country in the near future. She will arrive here in about six weeks to make her home. Werder in the meantime is continuing with his work on the boat. He was scheduled to arrive at Pango Pango, in the South Sea Islands, this afternoon en route to this country where he will again see his wife.

BURLINGAME WOMAN DIES

BURLINGAME, Sept. 23.—Funeral services were held today at 2 p. m. for Mrs. Harriet Dower, for 25 years a resident of Burlingame, at the Frank Wyckoff mortuary. Mrs. Dower died following a short illness.

Heart Disease Held Cause of Man's Death

Thought at first to have been the victim of strangulation, John Rasmussen, 70, former employe of the San Mateo Feed and Fuel Company in San Mateo, died yesterday afternoon from heart disease, an autopsy performed today revealed, according to Coroner William Crosby.

The aged man, who had lived in San Mateo for the past 25 years, died while eating a piece of pie with his landlady, Mrs. W. Ferriera. She thought he had choked to death.

Rasmussen, according to a petition for special letters of administration filed this morning by the Bank of America, left an estate consisting of $398.79 in cash and other property valued at $4,717.57. It was believed he left a will.

A brother and a sister living in Denmark survive.

There are approximately 9,000,000 delinquent and needy children in the United States.

Washington, D. C., has no mayor. It is governed by commissioners appointed by the president and approved by the senate.

Purchasers of early rifles were given a small mallet free. The mallet was used to drive the shot into the barrel.
